Tribute to Shri . Padmanabh P Vora
(Ex- Chairperson, Mentor, a family member)
(1943 - 2022)

With a heavy heart and great sorrow we pay condolence to the demise of our Mentor

Shri Padmanabh Pundrikray Vora on Friday, 05TH August 2022.

Our Ex-Chairperson, Director Shri Padmanabh P Vora was an exceptional human being and outstanding leader. He was a man of vision with high attitude of commitment. His life odyssey and achievements prove that, backed by confidence, courage and conviction, one can achieve even the impossible. He played an incumbent role in making possible the company to accomplish its present level of strength and robust fundamentals since the humble beginning of his tenure from the year 2015. Over the years, the company has been benefited immensely from his guidance and vigilance.

He was not only our mentor but also dearest Pahal family member. Shri Padmanabh P. Vora will be irreplaceable in his Family, Our Organization and in life of all those people wherein his influence was the major contributing factor. He will always be remembered for his helping nature, dedication towards work and his humbleness.

He will be immortal in our memory and Pahal family will always cherish and value his guidance and adhere to his path and values. We wish his soul rest in peace in the heavenly abode.

MANAGEMENT DISCUSSION AND ANALYSIS

Back Ground

Pahal has started its operations by acquiring a NBFC company “Kelkar Leasing Company Private Limited” The company was duly acquired on 8th February 2011. The current promoters commenced the microfinance activities with a vision to provide holistic financial inclusion. The current promoters acquired a small microfinance portfolio of INR 2.50 CR of Lok Vikas Nidhi (a division of Vikas Centre for Development)-a well-known trust operating in the area of social development in Gujarat for over 25 years. Vikas did not wish to run the microcredit activity and hence the portfolio created under the Joint-liability group (JLG) methodology was acquired by the NBFC. The name has been subsequently changed from Kelkar Leasing Company Private Ltd to **Pahal Financial Services Private Limited** to reflect the nature of the work we have undertaken in ‘financial inclusion’.

The Fiscal Year 2021-22 began on the challenging note with the second and third wave of the Covid-19 Pandemic. State Government has imposed lockdowns at various at various location in areas where Pahal is operating, the same made the movements restricted and Income generation activities were impacted, a little severely on low earning people and it has impacted the overall annual performance.

Even though it was quite challenging for most of the companies in the industry, Pahal has managed to keep its numbers reasonably positive and encouraging comparing to the peers in the MFI segment.

COVID-19 PANDEMIC

The “Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2)”, generally known as COVID-19, which was declared as a pandemic by the WHO on March 11, 2020, continued to spread across India and still there is substantial level of disruption on socioeconomic front across the country. Under the second wave of COVID-19 pandemic in April 2021, which was considered to be more severe than the first one, several parts of the Country have imposed lockdown/ curfew in order to arrest the spread of the COVID-19 pandemic. There was a high level of uncertainty about the duration of the lockdown and the time required for things to get normal.

Under third wave, the recovery in economic activity has emerged. Both manufacturing and services remain in expansion with optimism on demand parameters and uptake in consumer and business confidence.

Further, in accordance with the Circulars issued by Reserve Bank of India (RBI) dated March 27, 2020, April 17, 2020, May 23, 2020 and May 05, 2021 with regard to providing relief to borrowers on account of COVID-19 pandemic, the Company had offered moratorium to eligible borrowers in accordance with a Board approved policy. Given the uncertainty over the potential macro-economic impact, the Company will continue to closely monitor any material changes to future economic conditions.

RISK MANAGEMENT AND AUDIT

Pahal has a strong risk management system in which the Risk Management Framework covers Credit, Operational, Market, Liquidity, and Reputational Risks. The risk appetite includes a series of metrics with limits that express, in quantitative and qualitative terms, the maximum risk exposure that your company is willing to assume. We use a risk matrix to assess and compare the risks.

It aims to reduce the likelihood of errors, wrong decisions, and the impact of risks due to unforeseen circumstances as much as possible. The management regularly monitors risk and discloses its risk profile and mitigation strategies to the board on an ongoing basis. Overall governance, management, and oversight of the risk management practices of the organization exist with the Board, Audit Committee, ALCO & Risk Management Committee.

The FY 2021-22 started with the devastating COVID-19 second wave in India which threatened lives and livelihoods and created immediate challenges which were even more catastrophic than the first wave which occurred in 2020. Since the company already had experience in managing this crisis, it was able to handle it in a better way. The comprehensive risk management system of Pahal had helped the company in being prepared for the uncertainty and unforeseeable challenges posed by COVID-19.

The business Continuity Plan was prepared and implemented across Pahal. Analysis of various scenarios was conducted and planned accordingly with the implementation in a proactive way. The management was able to steer the company out of this crisis and brought it to a comfortable position. Post covid business and its collection efficiency started portraying a better and positive shine for the company as well as the sector.

The Company has also taken the opportunity to learn from this crisis about ways to improve its core strength and how to move forward to strengthen the systems in the areas of Technology, Human Resources, and Internal Control.

Good customer relationship management, close monitoring, dynamic changes in approach, methodology, and digitization process have created a new dimension for the company to survive. We are committed to strengthening the risk culture across the company and integrating systems to manage the inherent risks in the foreseeable future.

INDEPENDENT AUDITOR'S REPORT

To The Members of Pahal Financial Services Private Limited
Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of Pahal Financial Services Private Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the Financial Statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its profit including other comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Key Audit Matters

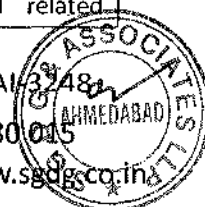

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

When we read the other Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and to comply with the relevant applicable requirements of the SA 720 'The Auditor's responsibilities Relating to Other Information'.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive loss, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended.
- e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Financial Statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements. (Refer Note 21)
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of their knowledge and belief, as

disclosed in the notes to the accounts, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The Management has represented, that, to the best of their knowledge and belief, as disclosed in the notes to accounts, no funds (which are material either individually or in the aggregate) have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material mis-statement.

- v. The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with section 123 of the Act, as applicable. The company has not proposed final dividend for the year.

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Annexure A to the Independent Auditors' Report

[Annexure referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report on Financial Statements for the year ended March 31, 2022 to the members of Pahal Financial Services Private Limited]

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Pahal Financial Services Private Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

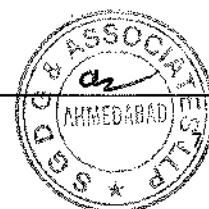

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of

the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure B to the Independent Auditors' Report

[Annexure referred to in paragraph 2 under "Report on Other Legal and Regulatory Requirements" section of our report on Financial Statements for the year ended March 31, 2022 to the members of Pahal Financial Services Private Limited]

To the best of our information and according to explanations provided to us by the Company and the books of accounts and records examined by us in the normal course of audit, we state that:

- i. **In respect of the Company's Property, Plant and Equipment and Intangible Assets:**
 - a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets. The Company has maintained proper records showing full particulars of intangible assets.
 - b) Some of the Property, Plant and Equipment and right-of-use assets were physically verified during the year by the management in accordance with a programme of verification, which in our opinion provides for physical verification of all the Property, Plant and Equipment and right-of-use assets at reasonable intervals having regard to size of the Company and nature of its activities. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - c) The Company does not have any immovable property. Based on the examination of the lease agreement in respect of immovable property where the Company is the lessee, we report that lease deed is duly executed in favor of the Company and such immovable property has been disclosed in the financial statement as Right of Use of Assets as at the balance sheet date.
 - d) The company has not revalued any of its Property, Plant and Equipment (including Right of Use assets) and intangible assets during the year.
 - e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder
- ii. **In respect of Inventories:**
 - a) The Company does not have any Inventory. Therefore, the provisions of clause 3(ii)(a) of the Order are not applicable to the company.
 - b) The company has not been sanctioned working capital limits in excess of Rs. 500 Lakhs at any point of time during the year from banks or financial institutions. Therefore, the provisions of clause 3(ii)(b) of the Order is not applicable to the company.
- iii. **In respect of Investments made, loans, secured or unsecured, granted to companies, firms, Limited Liability Partnerships or any other parties during the year:**
 - (a) The Company's principal business is to give loans, and hence reporting under clause (iii)(a) of the Order is not applicable.
 - (b) The Investment made and terms and conditions of the grant of loans during the year are, in our opinion, prima facie, not prejudicial to the Company's interest.

- (c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments or receipts have been generally regular as per stipulations. However, in certain loans the repayments or receipts have not been regular as per stipulations.
- (d) In respect of following loans granted by the Company, which have been overdue for more than 90 days at the balance sheet date, as explained to us, the Management has taken reasonable steps for recovery of the principal amounts and interest:

No. of cases	Principal amount overdue	Interest overdue	Total overdue	Remarks
19,191	Rs. 1,073.32 lakhs	Rs. 240.24 Lakhs	Rs. 1,313.56 Lakhs	None

- (e) The Company's principal business is to give loans, and hence reporting under clause (iii)(e) of the Order is not applicable.
- (f) According to information and explanations given to us and based on the audit procedures performed, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year.
- iv. According to information and explanation given to us, the Company has not granted any loans, made investments or provided guarantees or securities that are covered under the provisions of sections 185 or 186 of the Companies Act, 2013, and hence reporting under clause (iv) of the Order is not applicable.
- v. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause (v) of the Order is not applicable.
- vi. The maintenance of cost records has not been specified for the activities of the Company by the Central Government under section 148(1) of the Companies Act, 2013.
- vii. **In respect of statutory dues:**
- a) Undisputed statutory dues, including Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, cess and other material statutory dues applicable to the Company have been regularly deposited by it with the appropriate authorities during the year.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, cess and other material statutory dues in arrears as at March 31, 2022 for a period of more than six months from the date they became payable.

- b) Details of statutory dues referred in sub-clause (a) above which have not been deposited on account of disputes as on March 31, 2022 are as under:

Nature of Statute	Nature of Dues	Forum where Dispute is Pending	Period to which amount relates	Amount (Rs. in Lakhs)
The Income Tax Act, 1961	Income Tax	CIT (Appeals)	AY 2018-19	61.72 (Net of 14.59 paid under protest)

- viii. There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.
- ix. **In respect of loans, borrowings, and funds:**
- a) In our opinion, the Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
 - b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
 - c) To the best of our knowledge and belief, in our opinion, term loans availed by the Company were, applied by the Company during the year for the purposes for which the loans were obtained.
 - d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
 - e) The Company did not have any subsidiary or associate or joint venture during the year and hence, reporting under clause (ix)(e) of the Order is not applicable.
 - f) The Company does not have investment in any subsidiary or associates or joint ventures and hence, reporting under clause (ix)(f) of the Order is not applicable.
- x. **In respect of money raised by way of public offer, preferential allotment and private placement:**
- a) The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year. Therefore, paragraph 3 (x)(a) of the Order is not applicable.
 - b) The Company has made private placement of shares during the year. For such allotment of shares, the Company has complied with the requirements of Section 42 and 62 of the Companies Act, 2013, and the funds raised have been, prima facie, applied by the Company during the year for the purposes for which the funds were raised. The Company has not made any preferential allotment or private placement of (fully or partly or optionally) convertible debentures during the year.
- xi. **In respect of fraud:**
- a) According to the information and explanations given to us, no material fraud by the Company has been noticed or reported during the year under audit. However, cash embezzlement of Rs. 4.56 lakhs by its officers or employees has been noticed and reported during the year under audit.
 - b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
 - c) As represented to us by the Management, there were no whistle blower complaints received by the Company during the year.

- xii. In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable.
- xiii. According to the information and explanations given by the management, transactions with the related parties are in compliance with section 177 and 188 of the Act where applicable and the details have been disclosed in the notes to the Financial Statements, as required by the applicable Indian accounting standards.
- xiv. **In respect of Internal audit:**
- a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- b) We have considered, the internal audit reports issued to the Company during the year and covering the period April 2021 to December 2021 and the draft of the internal audit report issued after the balance sheet date covering the period from January 2022 to March 2022 for the period under audit.
- xv. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable.
- xvi. **In respect of registration under section 45-IA of the Reserve Bank of India Act, 1934:**
- a) The company is registered under Section 45- IA of the Reserve Bank of India Act, 1934 as Non-Banking Financial Company - Micro Finance Institution ('NBFC- MFI').
- b) During the year the Company has not conducted any Housing Finance activities and is not required to obtain CoR for such activities from the RBI. Further, the Company is having valid certificate of registration to conduct Non-Banking Financial activities.
- c) The company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Therefore, paragraph 3(xvi) (c) and (d) of the order are not applicable.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors of the Company during the year.
- xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

xx. In respect of CSR:

- a) According to the information and explanation given to us, in respect of other than ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount as at the end of the previous financial year, to a Fund specified in Schedule VII to the Companies Act, 2013 within a period of six months of the expiry of the said financial year in compliance with second proviso to subsection (5) of section 135 of the said Act. For current year, there is no unspent amount required to be transferred to a Fund specified in Schedule VII to the Companies Act, 2013, in respect of other than ongoing projects.
- b) In respect of ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount, to a Special account before the date of this report and within a period of 30 days from the end of the financial year in compliance with the provision of section 135(6) of the Act.

a General reserve

The general reserve is a free reserve which is used from time to time to transfer profits from retained earnings for appropriation purposes.

b Securities premium

Securities premium is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of section 52 of the Companies Act, 2013.

c Statutory Reserve

As required by section 45-IC of the RBI Act 1934, the company maintains a reserve fund and transfers there in a sum not less than twenty per cent of its net profit every year as disclosed in the profit and loss account and before any dividend is declared. The company cannot appropriate any sum from the reserve fund except for the purpose specified by Reserve Bank of India from time to time. Till date RBI has not specified any purpose for appropriation of Reserve fund maintained under section 45-IC of RBI Act, 1934.

d Stock options outstanding account

This Reserve relates to stock options granted by the Company to employees under Employee Stock Option Schemes. This Reserve is transferred to Securities Premium or Retained Earnings on exercise or cancellation of vested options.

e Cash flow hedge reserve

The Company has taken a cross currency interest rate swap to hedge the foreign currency risk of foreign currency borrowings. To the extent hedge is effective, the change in fair value of hedging instrument is recognised in cash flow reserve.

PAHAL FINANCIAL SERVICES PRIVATE LIMITED

Notes forming part of Financial Statements for the Year ended on March 31, 2022

1 Company overview

Pahal Financial Services Private Limited (herein after referred to as 'the Company') is a company incorporated under the provisions of the Companies Act, 1956. The company is non-deposit accepting non-banking financial company ('NBFC-ND') registered with the Reserve bank of India (RBI) under Section 45-IA of the RBI Act, 1934 and has got classified as a Non-Banking Financial Company- Micro Finance Institution ('NBFC- MFI') with effect from January 29, 2014.

The Company is primarily engaged in business of providing micro finance services by way of loans to women who are organized as Joint Liability Groups ('JLG') and individuals in the urban areas of Gujarat, Maharashtra, Madhya Pradesh, Bihar, Chhattisgarh, Uttar Pradesh, Haryana & Rajasthan.

In addition to the core business of providing micro finance, the company uses its distribution channel to provide certain other financial products and services to customers.

The financial statements are approved for issue by the Company's Board of Directors on May 6th 2022

2 Basis of Preparation & Presentation of Financial Statements

2.1 Statement of Compliance

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended time to time and the provisions of the RBI as applicable as per Master Direction - Non-Banking Financial Company - Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 issued vide Notification No. DNBR.PD.008/03.10.119/2016-17 dated September 1, 2016, as amended time to time ('the NBFC Master Directions, 2016').

2.2 Basis of measurement

The Financial Statements have been prepared on the historical cost basis except for the following items which are measured at fair values:

- a. certain financial assets and liabilities
- b. defined benefit plans assets

2.3 Functional and presentation currency

Indian rupee is the functional and presentation currency.

The Company presents its balance sheet in the order of liquidity. Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditionally legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis.

2.4 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions.

These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements are:

- Useful lives of property, plant and equipment
- Valuation of financial instruments
- Provisions and contingencies
- Income tax and deferred tax
- Measurement of expected credit loss
- Consideration of significant related party transactions
- Measurement of defined employee benefit obligations

3 Significant accounting policies

3.1 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Interest income and expenses

Interest income is recognised using effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through expected life of the financial asset to the gross carrying amount of the financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest on overdue interest is recognized in the year of its receipts.

The Company calculates interest income by applying EIR to gross carrying amount of financial assets other than credit-impaired assets. When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Company calculates interest income by applying the effective interest rate to the net amortized cost of the financial asset. If the financial assets cures and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

Interest expense includes issue costs that are initially recognized as part of the carrying value of the financial liability and amortized over the expected life using the effective interest method. These includes fees and commission payable to arrangers and other expenses such as external legal costs, provided these are incremental costs that are directly related to the issue of financial liability.

Dividend

Dividend income is recognised when the Company's right to receive the dividend is established, which is generally when the shareholders approve the dividend.

Gain or loss on derecognition of financial assets

Gain or Loss on derecognition of financial asset is determined as the difference between the sale price (net of selling costs) and carrying value of financial asset.

Bad Debt Recovery

Bad debt recovery is recognised as income in the year of receipt.

All other incomes are recognised and accounted for on accrual basis.

3.2 Property, plant and equipments

Property, plant and equipments are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

The cost comprises the purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

For transition to Ind AS, the carrying value of property plant and equipment under previous GAAP as on 01 April 2018 is regarded as its cost. The carrying value was original cost less accumulated depreciation and cumulative impairment.

Property, plant and equipment not ready for the intended use on the date of the Balance Sheet are disclosed as "Capital work-in-progress".

Gains or losses arising from derecognition of property, plant and equipments are measured as the difference between the net disposal proceeds and the carrying amount of the asset at the time of disposal and are recognized in the statement of profit and loss when the asset is derecognized.

Depreciation on property, plant and equipment is calculated on straight line basis using the ratio arrived as per the useful life prescribed under Schedule II to the Companies Act, 2013.

In respect of property, plant and equipment purchased during the year, depreciation is provided on a pro-rata basis from the date on which such asset is ready to use. Assets costing less than rupees ten thousand each is fully depreciated in the year of purchase.

The residual value, useful live and method of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Assets costing up to ₹ 5,000/- individually are fully depreciated in the year of purchase.

3.3 Intangible assets

An intangible asset is recognised, only where it is probable that future economic benefits attributable to the asset will accrue to the enterprise and the cost can be measured reliably.

Intangible assets are stated at cost, less accumulated amortization and impairment losses, if any.

Intangible assets not ready for the intended use on the date of the Balance Sheet are disclosed as "Intangible Assets Under Development".

Separately purchased intangible assets are initially measured at cost. Subsequently, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

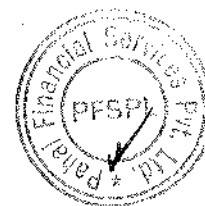

Intangible assets are amortized over the expected duration of benefit on a straight-line basis. Intangible assets acquired / purchased during the year are amortised on a pro-rata basis from the date on which such assets are ready to use. Software cost related to computers is capitalized and amortized using the straight-line method over a period of three years.

The residual value, useful live and method of amortization of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

3.4 Financial Instruments

3.4.1 Initial recognition

The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument.

All financial assets and liabilities are recognized at fair value on initial recognition.

Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to or deducted from the fair value of financial assets or financial liabilities on initial recognition.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Regular way purchase and sale of financial assets are accounted for at trade date.

3.4.2 Subsequent measurement

a Non-derivative financial instruments

i Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

ii Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model. For such equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

iii Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently measured at fair value through profit or loss. Fair value changes are recognised as other income in the Statement of Profit or Loss.

iv Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method.

b Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Incremental costs directly attributable to the issuance of equity instruments are recognised as a deduction from equity instrument net of any tax effects.

c Instruments entirely equity in nature

An option embedded in financial instruments to exchange a fixed number of the company's own equity instruments for a fixed amount of any currency are considered as equity instruments. Such instruments in financial statements are disclosed as instruments entirely equity in nature

3.4.3 Derecognition

The company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability is derecognized when obligation specified in the contract is discharged or cancelled or expires.

3.4.4 Off-setting

Financial assets and financial liabilities are offset and the net amount is presented in the balance sheet when the company currently has a legally enforceable right to offset the recognised amount and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

3.4.5 Modification

A modification of a financial asset occurs when the contractual terms governing the cash flows of a financial asset are renegotiated or otherwise modified between initial recognition and maturity of the financial asset. A modification affects the amount and/or timing of the contractual cash flows either immediately or at a future date. The Company renegotiates loans to customers in financial difficulty to maximize collection and minimize the risk of default. A loan forbearance is granted in cases where although the borrower made all reasonable efforts to pay under the original contractual terms, there is a high risk of default or default has already happened and the borrower is expected to be able to meet the revised terms. The revised terms in most of the cases include an extension of the maturity of the loan, changes to the timing of the cash flows of the loan (principal and interest repayment), reduction in the amount of cash flows due (principal and interest forgiveness).

Not all changes in terms of loans are considered as renegotiation and changes in terms of a class of obligors that are not overdue is not considered as renegotiation and is not subjected to deterioration in staging.

3.4.6 Derivative Instruments

The Company designates cross currency interest rate swap contracts as hedge instruments in respect of foreign exchange risks arising from foreign currency borrowings. These hedges are accounted for as cash flow hedges. The Company uses hedging instruments that are governed by the policies of the Company which are approved by their respective Board of Directors. The policies provide written principles on the use of such financial derivatives consistent with the risk management strategy of the Company. The hedge instruments are designated and documented as hedges at the inception of the contract. The Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The effectiveness of hedge instruments to reduce the risk associated with the exposure being hedged is assessed and measured at inception and on an ongoing basis. If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified in the statement of profit and loss. The effective portion of change in the fair value of the designated hedging instrument is recognised in other comprehensive income and accumulated under the heading cash flow hedging reserve.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity till that time remains and is recognised in statement of profit and loss when the forecasted transaction ultimately affects the profit and loss. Any gain or loss is recognised immediately in the statement of profit and loss when the hedge becomes ineffective.

3.5 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefit by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy. The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 – inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – inputs are other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived prices)

Level 3 – inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumption that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

3.6 Income taxes

3.6.1 Current Tax

Current tax is recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly in equity, in which case, the current tax is also recognised in other comprehensive income or directly in equity, respectively.

Current tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Current tax assets and current tax liabilities are offset, where company has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

3.6.2 Deferred Tax

Deferred tax is recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly in equity, in which case, the deferred tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred tax liabilities are recognised for all taxable temporary differences, except to the extent that the deferred tax liability arises from initial recognition of goodwill; or initial recognition of an asset or liability in a transaction which is not a business combination and at the time of transaction, affects neither accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax losses and carry forward of unused tax credits to the extent that it is probable that taxable profit will be available against which those temporary differences, losses and tax credit can be utilized, except when deferred tax asset on deductible temporary differences arise from the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit or loss.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the tax rules and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset, where company has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

3.6.3 Minimum Alternate Tax (MAT)

Minimum alternate tax (MAT) paid in a year is charged to the Statement of profit and loss as current tax for the year. The deferred tax asset is recognized for MAT credit available only to the extent that it is probable that the Company will pay normal income tax during the specific period, i.e. the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset, it is created by way of credit to the Statement of profit and loss and shown as part of deferred tax asset. The Company reviews the 'MAT credit entitlement' asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

3.7 Impairment

3.7.1 Financial assets

Considering the prudence, the Company recognizes impairment on financial asset on higher of the provision required as per the directions issued by Reserve Bank of India or using expected credit loss (ECL) model as prescribed in Ind AS for the financial assets which are not fair valued.

The expected credit losses (ECLs) is recognized based on forward-looking information for all financial assets at amortized cost, no impairment loss is applicable on equity investments.

At the reporting date, an allowance is required for the 12 month ECLs. If the credit risk has significantly increased since initial recognition (Stage 1), an allowance (or provision) should be recognized for the lifetime ECLs for financial instruments for which the credit risk has increased significantly since initial recognition (Stage 2) or which are credit impaired (Stage 3).

The measurement of ECL is calculated using three main components: (i) probability of default (PD) (ii) loss given default (LGD) and (iii) the exposure at default (EAD). The 12 month ECL is calculated by multiplying the 12 month PD, LGD and the EAD. The 12 month and lifetime PDs represent the PD occurring over the next 12 months and the remaining maturity of the instrument respectively. The EAD represents the expected balance at default, taking into account the repayment of principal and interest from the balance sheet date to the default event together with any expected drawdowns of committed facilities. The LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realised and the time value of money.

The Company applies a three-stage approach to measure ECL on financial assets accounted for at amortized cost. Assets migrate through the following three stages based on the change in credit quality since initial recognition.

Stage 1: 12-months ECL

For exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months is recognized. Exposures with days past due (DPD) less than or equal to 29 days are classified as stage 1. The Company has identified zero bucket and bucket with DPD less than or equal to 29 days as two separate buckets.

Stage 2: Lifetime ECL – not credit impaired

For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, a lifetime ECL is recognized. Exposures with DPD equal to 30 days but less than or equal to 89 days are classified as stage 2. At each reporting date, the Company assesses whether there has been a significant increase in credit risk for financial asset since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Company has identified cases with DPD equal to or more than 30 days and less than or equal to 59 days and cases with DPD equal to or more than 60 days and less than or equal to 89 days as two separate buckets.

Stage 3: Lifetime ECL – credit impaired

Financial asset is assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. For financial asset that have become credit impaired, a lifetime ECL is recognized on principal outstanding as at period end. Exposures with DPD equal to or more than 90 days are classified as stage 3.

A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment.

ECL is recognized on EAD as at period end. If the terms of a financial asset are renegotiated or modified due to financial difficulties of the borrower, then such asset is moved to stage 3, lifetime ECL under stage 3 on the outstanding amount is applied.

The Company assesses when a significant increase in credit risk has occurred based on quantitative and qualitative assessments. Exposures are considered to have resulted in a significant increase in credit risk and are moved to Stage 2 when:

Quantitative test: Accounts that are 30 calendar days or more past due move to Stage 2 automatically. Accounts that are 90 calendar days or more past due move to Stage 3 automatically.

Reversal in Stages: Exposures will move back to Stage 2 or Stage 1 respectively, once they no longer meet the quantitative criteria set out above. For exposures classified using the qualitative test, when they no longer meet the criteria for a significant increase in credit risk and when any cure criteria used for credit risk management are met.

The definition of default for the purpose of determining ECLs has been aligned to the Reserve Bank of India definition of default, which considers indicators that the debtor is unlikely to pay and is no later than when the exposure is more than 90 days past due.

The measurement of all expected credit losses for financial assets held at the reporting date are based on historical experience, current conditions and reasonable and supportable forecasts. The measurement of ECL involves increased complexity and judgement, including estimation of PDs, LGD, a range of unbiased future economic scenarios, estimation of expected lives and estimation of EAD and assessing significant increases in credit risk.

Presentation of ECL allowance for financial asset

ECL related to the Financial assets measured at amortized cost are shown as a deduction from the gross carrying amount of the assets.

Methodology for calculating ECL

The Company determines ECL based on a probability weighted outcome of factors indicated below to measure the shortfalls in collecting contractual cash flows. The Company does not discount such shortfalls considering relatively shorter tenure of loan contracts.

Probability of default (PD) - The probability of default is an estimate of the likelihood of default over a given time horizon (12- month or lifetime, depending upon the stage of the asset).

Exposure at default (EAD) - It represents an estimate of the exposure of the Company at a future date after considering repayments by the counterparty before the default event occurs.

Loss given default (LGD) - It represents an estimate of the loss expected to be incurred when the event of default occurs.

Forward looking information

While estimating the expected credit losses, the Company reviews macro-economic developments occurring in the economy and market it operates in. On a periodic basis, the Company analyses if there is any relationship between key economic trends like GDP, unemployment rates, benchmark rates set by the RBI, inflation, etc. with the estimate of PD, LGD determined by the Company based on its internal data. While the internal estimates of PG, LGD rates by the Company may not be always reflective of such relationships, temporary overlays are embedded in the methodology to reflect such macro-economic trends reasonably.

Write off

Impaired loans and receivables are written off, against the related allowance for loan impairment on completion of the Company's internal processes and when the Company concludes that there is no longer any realistic prospect of recovery of part or all of the loan. For loans that are individually assessed for impairment, the timing of write off is determined on a case by case basis. A write-off constitutes a de-recognition event. The Company has a right to apply enforcement activities to recover such written off financial assets. Subsequent recoveries of amounts previously written off are credited to the income statement.

3.7.2 Non-financial assets

Tangible and intangible assets

The company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists the company estimates the asset's recoverable amount.

An asset's recoverable amount is the higher of an assets net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The impairment loss is recognised in the statement of profit and loss.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

3.8 Borrowing costs

Borrowing cost includes interest and other costs that company has incurred in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset.

All other borrowing costs are expensed in the year they occur.

Investment income earned on temporary investment of specific borrowing pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

3.9 Employee Benefits

Short term employee benefits for salary that are expected to be settled wholly within 12 months after the end of the reporting period in which employees render the related service are recognized as an expense in the statement of profit and loss

Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service.

The company operates two defined benefit plan for its employees, viz., gratuity plan and leave encashment plan. The costs of providing benefits under the plans are determined on the basis of actuarial valuation at each year-end. Actuarial valuation is carried out using the projected unit credit method made at the end of each reporting date. Re-measurement of the net defined benefit liability (asset) comprise of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability (asset) and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability / (asset)). Re-measurement are recognised in other comprehensive income and will not be reclassified to profit or loss in a subsequent period.

3.10 Provisions

A provision is recognized when the company has a present obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

3.11 Contingent Liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

3.12 Contingent Asset

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company. The company does not recognize a contingent asset but discloses its existence in the financial statements.

3.13 Cash and cash equivalent

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank (including demand deposits) and in hand and short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.14 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

3.15 Lease

As a lessee, the company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the average cost of raising finance.

Lease payments included in the measurement of the lease liability comprise the Fixed payments, including in-substance fixed payments.

The lease liability is measured at amortised cost using the effective interest method. When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero. The company presents right-of-use assets as separate line item in Non-current Assets and lease liabilities in 'borrowings' in the balance sheet.

Short-term leases and leases of low-value assets:

The company has elected not to recognise right-of-use assets and lease liabilities for short-term leases of real estate properties that have a lease term of less than 12 months. The company recognises the lease payments associated with these leases as an expense on a straight line basis over the lease term.

3.16 Segment Reporting

An operating segment is component of the company that engages in the business activity from which the company earns revenues and incurs expenses, for which discrete financial information is available and whose operating results are regularly reviewed by the chief operating decision maker, in deciding about resources to be allocated to the segment and assess its performance. The company's chief operating decision maker is the Board of Director.

Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as un-allocable.

Revenue and expenses directly attributable to segments are reported under each reportable segment. All other expenses which are not attributable or allocable to segments have been disclosed as un-allocable expenses.

The company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the company as a whole.

3.17 Cash Flow Statement

Cash flows are reported using indirect method whereby profit for the period is adjusted for the effects of the transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts and payments and items of income or expenses associated with investing and financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

3.18 Events after reporting date

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

3.19 General

Any other accounting policy not specifically referred to are in consistent with generally accepted accounting principles.

37 Fair Value Measurement

Fair Value Measurement of Financial asset and Financial liabilities

- 37.1** The Fair value of Loan given and funds borrowed approximate carrying value as the respective interest rates of the said instruments are at the prevailing market rate of interest.
- 37.2** The carrying amount of other financial assets and other financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled. Hence, fair value hierarchy is not given for the same.
- 37.3** Derivative Financial Liability on account of cross currency interest rate swap is classified as FVOCI.

38 Financial Risk Management

38.1 Financial Instruments Risk management objectives and Policies

The company's activities expose it to variety of financial risks : market risk, credit risk and liquidity risk. The company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors has established a risk management policy to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management systems are reviewed periodically to reflect changes in market conditions and the Company's activities. The Board of Directors oversee compliance with the Company's risk management policies and procedures, and reviews the risk management framework.

38.2 Market Risk

The market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises currency risk and interest rate risk. The company does not have any investments, hence it is not exposed to other price risk.

38.3 Currency Risk

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Company's functional currency. The Company has foreign currency borrowing and hence is exposed to foreign exchange risk. The Company uses derivative instruments as part of its management of exposure to fluctuations in foreign currency exchange rates. The derivative transactions are in form of cross currency interest rate swaps, fair value of which is separately disclosed under other financial assets / liabilities.

The exposure of foreign currency borrowing is as under:		(Amount in Lacs)

Other Financial Assets	1,734.57	2,373.05
	1,06,073.38	74,664.32

Credit risk on cash and cash equivalents is limited as company deposits with the banks.

For the loan portfolio, an impairment analysis is performed at each reporting date based on the facts and circumstances existing on that date to identify expected losses on account of credit risk. For the purposes of this analysis, the loan portfolio is categorised into groups based on days past due. Each group is then assessed for impairment using the ECL model as per the provisions of Ind AS 109 - financial instruments. The impairment assessment also carried out in accordance with the regulations prescribed by RBI. The provision for impairment is considered at higher of the amount worked out as per Ind AS 109 or as per RBI Regulations.

39 Transfer of financial assets that are not derecognised in their entirety

39.1 Nature of loan portfolio transferred under securitization transaction

During the year 2021-22 and corresponding previous year, company has entered securitization arrangement with various banks and financial institutions. Under the arrangement company has transferred a select pool of loan portfolio which was originated in its books after completion of the minimum retention period as prescribed by Reserve Bank of India under its securitization guidelines. Derecognition of pool transferred which does not fulfil the derecognition criteria specified in AS 109 as the risk and rewards with respect to these assets are not substantially transferred.

Following such transfer, the company's involvement in these assets is as follows:-

- As a servicer of the transferred assets
- To the extent of credit enhancements provided to such parties.

39.2 Nature of risk and rewards of ownership to which the entity is exposed

The company has transferred a part of its portfolio (measured at amortised cost) vide securitization deals executed with various parties as a source of funds. As per the terms of deal, the derecognition criteria as per Ind AS 109 including transaction substantially at the risks and rewards relating assets being transferred to the buyer being met. The assets have been derecognized. However, to the extent of continuing involvement company has created assets with respect to the interest spread receivables and corresponding liability on account of credit enhancements provided. These transactions are being done as per the guidelines laid down by the Reserve Bank of India.

The arrangement has evaluated the impact of the securitization transaction executed during the year on its business model. Based on the future business plan, the company's business model remains to hold assets for collecting contractual cash flows.

42 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The CODM is considered to be the Board of Directors who makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments.

The CODM considers the entire business of the Company on a holistic basis to make operating decisions reviews the operating results of the Company as a whole. Further the Company operates in a single reportable segment i.e. financing wherein loans are given to women who are organized as Joint Liability Groups ('JLG') and individuals in the urban areas of various states of India. These activities have similar risks and returns for the purpose of Ind AS 108 "Operating segments", and is considered to be the only reportable business segment. Further, The Company is operating in India which is considered as a single geographical segment.

43 Leases

The Company has taken various office premises under lease. The lease terms in respect of such premises are on the basis of individual agreement entered into with the respective landlords. Tenure of leases ranges from eleven months to nine years. Lease payments in respect of short term leases and leases of assets with low value are accounted as an expense in the year of incurrence.

Nature of CSR Activities undertaken

1. Bihar Floods: Pahal's CSR triggered a project to provide essentials/food/shelter benefits to the people affected by floods in the Bihar region. The project covered the affected population in the districts of Muzaffarpur, Sitamarhi, Seohar, Darbhanga, Mahubani, Samastipur, Khagaria and Bhagalpur. The team distributed flat rice, jaggery, chickpea, candle, matchbox, biscuit, and tarpaulin without differentiating between borrowers and non-borrowers.

2. E-clinic : With an aim to provide accessible and affordable Digital Healthcare facilities in rural India, Pahal has collaborated with M-SWASTH to set up e-clinics in its branches. In January'22, Pahal has already launched 2 E-clinics to serve the population of Jhanjharpur and Minapur villages in Bihar. In these 3 months around 200 consultations have been provided.

45 Retirement Benefits

(i) Defined Contribution Plan:

Contribution to Provident Fund and ESIC are included in note 33 "Employee benefits expense" includes ₹147.47 Lakhs (P.Y. ₹ 106.61 Lakhs) being expenses debited under defined contribution plan.

(ii) Defined Benefit Plan:

The Company has funded defined benefit gratuity plan. Every employee who has completed five years or more of service is consequent to the adoption of IND AS 19 'Employee Benefits' specified under section 133 of the Companies Act, 2013 read with rule 7 of Companies(Accounts) Rules, 2014, the following disclosures have been made as required by the standard:

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility :

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets underperform compared to this yield, this will create or increase a deficit. The defined benefit plans may hold equity type assets, which may carry volatility and associated risk.

Change in bond yields :

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plan's investment in debt instruments.

Inflation risk :

The present value of some of the defined benefit plan obligations are calculated with reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability. The post retirement medical benefit obligation is sensitive to medical inflation and accordingly, an increase in medical inflation rate would increase the plan's liability.

Life expectancy :

The present value of defined benefit plan obligation is calculated by reference to the best estimate of the mortality of plan participants: both during and after the employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

The following tables set out the status of the gratuity plan as required under Ind AS 19.

(Amount in Lacs)

Fair Value of Plan Asset at the end of the year**	79.70	69.55
v) Amount Recognised in Balance Sheet		
Defined benefit obligation	101.57	77.17
Fair value of plan assets	79.70	69.55
Plan asset / (liability)	(21.88)	(7.61)

vi) The principal assumptions used in determining gratuity obligation for the Company's plans are shown below:

Particulars	March 31, 2022	March 31, 2021
Discount Rate per annum	6.90%	6.49%
Expected return on plan assets	6.90%	6.49%
Rate of salary increase	7.00%	7.00%
Employee turnover rate	For service 2 years and below 35% p.a. & For service 3 to 4 years 15% p.a. and service 5 years & above 5% p.a.	For service 2 years and below 35% p.a. & For service 3 to 4 years 15% p.a. and service 5 years & above 5% p.a.
Mortality Rate	Indian Assured Lives Mortality 2012-14 (Urban)	Indian Assured Lives Mortality (2006-08) Ultimate

** The Plan Asset is managed by LIC of India.

vii) Projection Risks:

Investment Risk - The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to the market yields on government bonds denominated in Indian Rupees. If the actual return on plan asset is below this rate, it will create a plan deficit.

Interest Risk - A decrease in the bond interest rate will increase the plan liability. However, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity Risk - The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary Risk - The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Funding Arrangement and Policy

The money contributed by the Group to the fund to finance the liabilities of the plan has to be invested. The trustees of the plan are required to invest the funds as per the prescribed pattern of investments laid out in the Income Tax Rules for such approved schemes.

- 71 The Company has entered into derivative transaction to hedge foreign exchange risk arising from foreign currency borrowing. The Company designates cross currency interest rate swap contracts as hedge instruments in respect of foreign exchange risks arising from foreign currency borrowings. These hedges are accounted for as cash flow hedges. The hedge instruments are designated and documented as hedges at the inception of the contract. The Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The effectiveness of hedge instruments to reduce the risk associated with the exposure being hedged is assessed and measured at inception and on an ongoing basis. The effective portion of change in the fair value of the designated hedging instrument is recognised in other comprehensive income and accumulated under the heading cash flow hedging reserve. Any gain or loss recognised in other comprehensive income and accumulated in equity and is recognised in statement of profit and loss when the forecasted transaction ultimately affects the profit and loss.

ANNEXURE I

[Capitalized terms used herein but not defined shall have the meaning prescribed under the shareholders agreement ("SHA")]

1. Issue

- a) Each Series A CCPS shall be a cumulative, mandatorily and fully convertible preference share.
- b) Each Series A CCPS will have a face value of INR 10/- (Rupees Ten only).

2. Transferability

The Series A CCPS will be transferable in the manner as may be agreed between the Company and the investors.

- 3. **Dividends.** The holder of each Series A CCPS shall be entitled to preferential dividend at the rate of 0.001% per year for all the Series A CCPS till such time that the Series A CCPS are outstanding. The Series A shall be participating preference shares and shall be entitled to participate in any dividend distribution to holders of Equity Shares on the basis of Voting Percentage or Fully Diluted Basis, as may be applicable.

4. Conversion.

- a) The valuation shall be based on a Price to Book Multiple of 2.0x multiplied by the audited net worth as on March FY2021 (INR 1,243.60 million), normalized for any unusual or non-recurring items and subject to adjustments set out in paragraph 4 (b) below. For an approximation based upon audited figures provided to Huruma, the valuation would be INR 2,487.20 million. The estimated

calculation and the methodology used for calculating the expected credit loss is set forth under the SHA.

- b) The Parties agree that the Series A CCPS shall be converted into Equity Shares within a period of 60 (Sixty) days of receipt of the audited financial statements for the FY 22-2023. The Company shall also provide a price adjustment mechanism at the end of FY 22-23 (31st March 2023) which may result in a change in the price per Share of Huruma's investment, leading to change in the conversion ratio of the Series A CCPS held by Huruma, under the following conditions:
 - i. The business plan credit cost ratio will serve as a benchmark for the target credit cost ratio for FY 2022 and FY 2023. The "Benchmark Credit Cost Ratio" shall be calculated as follows:
 - 1. "Credit Cost Ratio" equals Total Net Credit Cost divided by AUM (on and off-balance sheet) whereas;
 - 2. "Total Net Credit Cost" equals all P&L loans loss provisions and write offs. For FY2022 and FY2023 Total Net Credit Cost will be calculated as Expected Credit Cost calculation methodology described in Annexure 2.
 - ii. FY2022, the Benchmark Credit Cost Ratio equals INR 186 million divided by INR 10,067 million or 1.85%
 - iii. For FY2023, the Benchmark Credit Cost Ratio equals INR 199 million divided by INR 14,902 million or 1.34%
 - iv. For comparison, for FY2021, the audited Credit Cost Ratio equals INR 269 million divided by INR 7.746 million or 3.47%.
- c) Once audited 31st March 2022 and 31st March 2023 financials are available, if the Expected Credit Cost Ratio is higher than the Benchmark Credit Cost Ratio, then the transaction shall be re-priced using the same 2.0x P/BV multiple but with a lower book value subtracting the following from the 31st March 2021 book value:
 - i. The Expected Credit Cost Ratio minus Benchmark Credit Cost Ratio, multiplied by the relevant net loan portfolio (for each of FY2022 and FY2023, net loan portfolio includes all on and off-balance sheet assets under management ("AUM") including on book, securitized book and managed book; for audited financial statements for FY2021 net loan portfolio is equivalent to INR 7.746 million). The sum of both results for FY2022 and FY 2023 shall be the value to be subtracted from 31st March 2021 book value, with a permitted deviation from Benchmark Credit Cost Ratio of up to 10.0%. If the deviation from Benchmark Credit Cost Ratio is higher than 10.00% for any of FY2022 or FY2023, then the full amount shall be the value to be subtracted from

31st March 2021 book value.

- d) If the Expected Cost Ratio is lower than the Benchmark Credit Cost Ratio, then there shall be no change in the valuation.
- e) The maximum possible amount to be subtracted from the 31st March 2021 book value will be such that the Huruma's stake on the Closing Date does not exceed 25.90% on the basis of Voting Percentage or a Fully Diluted Basis, as may be applicable.
- f) If there is an unexpected liquidity event involving Huruma's Series A CCPs before audited financials for FY23 are available, then the Credit Cost Ratio shall be calculated using the last available half-yearly or annual financial statements, and any adjustment to the 31st March 2021 book value shall be relative to the time period elapsed from 31st March 2021 to the latest available financials. The procedures for all such calculations and additional shares (if applicable) shall be completed prior to the liquidity event.
- g) If there are any RBI or other regulatory dispensations that become effective at any time through the end of FY23 that have the effect of reducing provisioning for the portfolio, then the Total Net Credit Costs will also be adjusted for any additional provision expense that would result from the Expected Credit Cost calculation if not for the RBI dispensation.
- h) The ratios and calculations as detailed above shall be calculated using the same accounting treatment, including usage of IndAS accounting standards and internal accounting policy as of 31st March 2021 and as per methodology set forth in Annexure 2. In addition, the Company shall not use acquisitions and divestures to manage the ratios above; any inclusion of acquisition or divestures of assets in the calculations above will be at Huruma's discretion.
- i) The holders of the Series A CCPS shall be issued fully paid up Equity Shares and will not be required at the time of conversion of such Series A CCPS into Equity Shares, to pay any amounts to the Company towards such Equity Shares. The Equity Shares issued pursuant to conversion of Series A CCPS shall carry the same rights and obligations as agreed between the Parties.
- j) The Series A CCPS shall be compulsorily convertible into Equity Shares and shall not be redeemable.

- k) **Anti-dilution adjustment:** The Series A CCPS shall have such anti-dilution rights as may be agreed between the Company and the Investors.

5. Adjustments.

- a) If, whilst any Series A CCPS remain capable of being converted into Equity Shares, the Company splits, sub-divides (stock split) or consolidates (reverse stock split) the Equity Shares into a different number of securities of the same class, the number of Equity Shares issuable upon a conversion of the Series A CCPS shall, subject to Applicable Law and receipt of requisite approvals, be proportionately increased in the case of a split or sub-division (stock split), and likewise, the number of Equity Shares issuable upon a conversion of the Series A CCPS shall be proportionately decreased in the case of a consolidation (reverse stock split).
- b) If, whilst any Series A CCPS remain capable of being converted into Equity Shares, the Company makes or issues a dividend or other distribution of Equity Shares to the holders of Equity Shares then the number of Equity Shares to be issued on any subsequent conversion of Series A CCPS shall, subject to Applicable Law and receipt of requisite approvals, be increased proportionately and without payment of additional consideration thereof by the holders of Series A CCPS subject to non-receipt of dividend or other distribution of Equity Shares by the holders Series A CCPS.
- c) If the Company, by re-classification or conversion of Securities or otherwise, changes any of the Equity Shares into the same or a different number of Securities of any other class or classes, the right to convert the Series A CCPS into Equity Shares shall thereafter represent the right to acquire such number and kind of Securities as would have been issuable as the result of such change with respect to the Equity Shares that were subject to the conversion rights of the holder of Series A CCPS immediately prior to the record date of such re-classification or conversion.
- d) The holders of Series A CCPS shall be entitled to the cumulative benefit of all adjustments referred to herein.

6. **Registration rights.** The holders of Series A CCPS shall receive typical and customary registration rights, where available, in all global market(s) where the Company lists the Securities. Termination of the agreements entered by the Company with the Investors shall not affect the obligation of the Company to provide registration rights to the holders of Series A CCPS.
7. **Meeting and Voting rights.** The holders of Series A CCPS shall be entitled to attend meetings of all Shareholders of the Company.
8. **Governing Law:** The Series A CCPS shall be governed and construed in accordance with the laws of India.
